SOLAR STIK™ Names Female Co-Founder As Chairman of the Board

St. Augustine, FL, January 22, 2009:

Solar Stik™, Inc, a rising renewable energy company, is pleased to announce the appointment of Dr. Stephanie D. Hollis to Chairman of the Board.

Dr. Hollis is a Board Certified Anesthesiologist who has long-sought to combine her passion for Medical Mission work with the promise of increased renewable energy solutions.

Several years ago, Dr. Hollis began funding the development of Solar Stik's™ ground-breaking solutions. In addition to providing the investment capital needed to develop the Solar Stik™ System, she committed her professional management talents & private industry insight, catapulting the company forward. Dr. Hollis is the Company's largest single investor.

Dr. Hollis is intimately involved in daily operations at Solar Stik™, Inc. She serves as the Controller, engages in public relations activities, and provides critical advice to the engineering team during its development of past & future Solar Stik™ offerings. Dr. Hollis will continue to maintain a career as a fulltime medical practitioner.

The Solar Stik™ Inc. Board of Directors unanimously elected Dr. Hollis, and she accepted the position as Chairman of the Board with vigor; "I am ecstatic about the future possibilities that Solar Stik™ will bring to medical mission work, American manufacturing, and renewable energy living. Solar Stik™ is more than just a product, it is a gateway of endless opportunities for worldwide improvement in people's lives" she stated.

With her leadership & the Company's proprietary & patented designs, Solar Stik™ Inc. is poised to be the premiere corporation in the burgeoning industry of portable renewable power solutions.

Solar Stik™ Inc. is a Delaware Corporation based in historic Saint Augustine, FL and maintains an office in Washington D.C. The Company's flagship designs have already been successfully implemented into many fields including Disaster Relief Efforts, Military Deployments, Humanitarian Relief & Medical Missions.

Dr. Hollis will represent the company at the upcoming renewable energy conference RETECH 2009 February 25-27 in Las Vegas, Nevada.
