

The New Generator™

**THE MILITARY-SPEC SOFT TRANSPORT CASES
COMPLETE SET OF THREE – ITEM # 005011**

- ⊕ **MANUFACTURED TO RIGID MILITARY SPECIFICATIONS**
- ⊕ **SOFT-SIDED CASES RENDER THE SYSTEM “MAN-PORTABLE”**
- ⊕ **CASES HAVE EXTRA STORAGE**
- ⊕ **AVAILABLE IN DESERT SAND OR BLACK**

⊕ **CUSTOM SOLAR PANEL CASE** ITEM # 005012

There is no finer complement to good equipment than protective cases. These military-grade cases are truly spectacular in design and finish, and are the result of relentless scrutiny by the Solar Stik™ design team. If the Solar Stik™ is employed in a "high mobility" application, the importance of having a strong transport case cannot be understated. These cases will protect your investment and make transport of the Solar Stik™ system easier.

⊕ **CUSTOM MAST CASE** ITEM # 005013

Every case that is made must pass a rigorous inspection where even the stitch count must meet exacting standards. Padded protection is strategically placed throughout the cases with careful precision. Additionally, the Solar Stik™ mast case features reinforced protection where you need it most.

⊕ **CUSTOM TRIPOD CASE** ITEM # 005014

The Tripod case is an engineering marvel in itself. Inside the lid, there is a pocket for carrying ground stakes or other equipment. Once the Tripod is stowed safely inside, the Tripod case straps to the Mast case for ease of transport.
