

SOLAR STIK™

TERRA PAK TECHNICAL SPECIFICATIONS

ITEM # 000705

OVERVIEW:

The Terra Pak is wired into an existing 12 volt system and provides the Solar Stik™ Breeze with a method to “plug in” both wind & solar circuits.

Allows “Plug & Play” operation of the Solar Stik™ Breeze with vehicles, cabins, trailers, and more.

Thirty-foot WIND & SOLAR leashes connect between the Solar Stik™ Breeze and the mounted receptacles, allowing for placement of the Solar Stik™ Breeze well away from the receptacle locations.

FEATURES:

Digital Solar Boost™ 2000E Three-Stage charge control

Battery Temperature Sensor

“Solar” receptacle & label

“Wind” receptacle & label

Thirty-foot Solar power leash & CorpPro™ reel
