

SOLAR STIK®

24VDC Inter-Connect Cable

5 ft - Item # 13-000032

Overview

Inter-Connect cables provide a simple, safe, and secure solution for adding components (Expander Paks, PRO-Verterers, etc.) to expand a system. The Inter-Connect plugs on each end are polarized to ensure proper orientation. The spin-lock mechanism provides a secure connection to the component. Plugs specific for 24 VDC systems ensure that only compatible components can be integrated into a system.

General

Connector	Deltran spin-lock polarized
Voltage	24 VDC
Warranty	1-year warranty on materials and workmanship

5-foot Inter-Connect Cable

Gauge wire	2 AWG
Continuous Current Capacity	200 A maximum
Dimensions	Length: 60 in (152.4 cm)
Weight	2.1 lb (1.0 kg)
